

Recruiting Parents/Guardians/Carers for an Online 1-Hour Focus Group Study

Investigating neurodivergent young people's experiences of gaming and gambling-like features in gaming

Inclusion-Exclusion Criteria

- Be 18+ years old.
- Live in the UK.
- Be a parent, carer, guardian, family member or in a similar role supporting neurodivergent children and young people (CYP) aged 11-25 who are engaged in online gaming and/or online gaming environments.
- CYP you support should have a formal diagnosis of a neurodevelopmental condition (e.g., autism, ADHD, dyslexia, dyspraxia, Tourette syndrome, or another recognised neurodevelopmental condition) and/or have an Education, Health and Care plan (EHC plan).
- Please **do not volunteer** for this study **if the children and young people** you support also experience **severe mental health conditions**, such as bipolar disorder, eating disorders, or other conditions that **may affect or confound their experiences as neurodivergent people**.
