

## Do you have a 10-13 year old autistic child and live in Somerset?

Researchers at University of Chichester invite you to take part in a research study evaluating a swimming lesson programme provided by the UK-based charity Neurodiversity-4-Shaw.

### **Qualified participants must:**

- Be a parent or caregiver of a 10-13 years old autistic child
- Be able to bring your child to nine 1-hr weekend sessions in Central Somerset, UK over 8 months, April - November 2026

### **Qualified participants will receive:**

- Six one-to-one swimming lessons for your child, at no cost
- Six group open swim sessions for your family, at no cost
- Up to £60 in gift cards

### **Participation will also involve:**

- Bringing your child to three 1-hr water skills assessments
- Completing three sets of surveys (~ 1 hr each set)
- Participating in an online focus group at the end of the study

You can help efforts to improve water competency for autistic children.
