

Neurodivergent people's experiences of maternity care: A qualitative interview study

Who are we looking for?

Neurodivergent Parents

- either birthing person or partner between 3 months and 2 years after the birth of your last child,
- with a neurodivergent diagnosis (official diagnosis or self-diagnosis),
- living in England or Wales.

Age

18 or older

Able to

- access the internet via a phone, tablet or computer for a Teams interview,
- read and write English.

Have not had

- a stillbirth,
- neonatal death,
- late miscarriage.

Who are we?

A team of researchers at the University of Manchester interested in the maternity care experiences of neurodiverse people.

What would my involvement be?

You will be asked to give your consent to take part in the study, answer some questions about yourself and then have a one-to-one online interview with one of the research team during which you will be asked some questions about your maternity experience.

Do I get anything?

Participants will have the option to enter into a prize draw for a voucher as a thank you for giving up their valuable time.
